

Team members data, preferences, and expectations

Name of team member	Roles			Grade expectations		Preferred times for...	
	Natural roles	Preferred tasks	Why (any special skill?)	Minimum grade	Expected grade	Extra meetings	Scrum Master
Ethan Noronha	Coordinator	Coordinator	Naturally inclined to coordinating between teammates, authorities and deadlines set. I can do database integration. Have a sound understanding of Java	7.5	9	During Weekdays: Anytime during the day During Weekends: None	28/05/25 04/06/25
	Implementer						
	Resource Investigator						
Gerben Bank	Monitor Evaluator	Monitor Evaluator	Common strategic overview of the situation and can make reasonably good estimates related to difficulty of the tasks. Basic HTML, SQL and JavaScript. Have a sound understanding of Java	6	7	During Weekdays: 10am-4pm During Weekends: None	21/05/25
	Coordinator						
	Implementer						
Cyril Shibu	Team Worker	Team Worker	Good communication skills, co-operative, diplomatic, listens and averts fiction. I find myself at home doing CSS and HTML. Have a sound understanding of Java	6	8	During Weekdays: 1pm to 7pm During Weekends: After 12pm	14/05/25
	Shaper						
	Resource Investigator						
Shishir Sudeesh Nambiar	Monitor Evaluator	Complete Finisher	Tendency to look into the minute details to make tasks and end results to look more professional and more appealing. I have a sound understanding with CSS, Java, HTML, JavaScript and database integration.	6	8	During Weekdays: 3pm to 7pm During Weekends: None	11/06/25
	Complete Finisher						
	Coordinator						

Goals

The work team has agreed to work towards the following main objective

*To plan, design, implement, test and delivery a web application for the company **Ubisoft** that include the features of (a) listing their products, (b) allow employees modify the information, (c) allow customers to buy products, and (d) rank the products in the time of 11 weeks*

The main objective can also be understood as the following specific objectives:

Sub goal	S (Specific) What	M (Measurable) Up to	Attainable How	Relevant Why	Time Bound When
1	Create a user-friendly interface that adapts to different screen sizes	Ensure all pages pass Google's Mobile-Friendly Test.	Use CSS frameworks like Bootstrap and JavaScript for efficiency	Enhances the user experience and engagement	Complete the UI design and responsiveness testing within 6 weeks
2	Design a well-structured relational database with optimized queries to store all meta data of users.	Ensure the average query time is less than 200ms for major operations	Using indexing and dynamic indexing for database optimization	Ensures reliable and fast data storage and retrieval	Complete database design and optimization within 6 weeks
3	Implement user authentication and security measures	By passing the login page using the appropriate password for specified user	Using HTTPS and protected tracing of username to password in database	Protects user data and prevents unauthorized access	Security implementation and testing within 5 weeks
4	Create detailed documentation	By comparing with user stories and the final code implementation	Break tasks into sections, use automation, validate continuously, maintain version control, conduct peer reviews, and get feedback. This ensures documentation aligns with user stories and final code while staying clear, accurate, and useful.	To document the code for potential future improvement and development	Complete documentation within 7 weeks

Behavioural rules

If the group encounters an internal problem that it cannot resolve in a negotiated manner, the group will go to this section to solve the problem through the following solution paths

Issue	Rule	After N times	breaking the rule, the team member affected...
Attending the meetings	Being late by 10 minutes		
		3	RED card
Active participation	All teammates should actively participate in meetings by voicing out their opinions.		
		5 meetings	warning
Taking responsibility	All teammates should take responsibility to their code (should be traced by commits/annotations). If any issues faced such as hindering with other's code without consent of the original author. All commits should have valid explanation and supporting info.		
		All instances	warning
Delivering my work	Delays on personal deadlines		
		3	Red Card

COMMITMENTS

Each member of the team has expressed their agreement with this contract and each of their commitments and that is collected in the following table:

COMMITMENTS		Team members signal					
C1	As a team member, I promise to do my best for achieving the goal of the team and deliver things on time.	Yes	Yes	Yes	Yes	Yes	Yes
C2	As a team member, I promise to act responsibly with my work and maintain updated the Trello project board.	Yes	Yes	Yes	Yes	Yes	Yes
C3	As a team member, I am committed to being open to dialogue and constructive criticism.	Yes	Yes	Yes	Yes	Yes	Yes
C4	As a team member, I agree to act with integrity and not to commit fraud.	Yes	Yes	Yes	Yes	Yes	Yes
